Additionally, around half of the teams participating in the 6th edition of Bucharest Pre-Moot subsequently obtained distinctions in the oral phase of the Willem C. Vis Moot, either in Hong Kong or in Vienna, therefore proving the high level of the Bucharest Pre-Moot.

The University of Bucharest team who participated in the 17th Hong Kong edition (23-29 March 2020) and the 27th Vienna edition (3-9 April 2020) of the Willem C. However, due to the COVID-19 pandemic, the organizers of the Hong Kong and Vienna Vis Moot made the difficult decision of cancelling the in-person events, having regard to the health and safety of the participants. Instead, the final oral stage of the both editions of the competition was held online.

In 2020, the University of Bucharest did not reach the elimination round in Hong Kong or in Vienna, a rare event. However, at the 17th Hong Kong edition of the Willem C. Vis Moot, the University of Bucharest obtained a historical achievement in the written phase of the competition, receiving **honorable mentions (4th place *ex aequo*) for both its Claimant Memorandum and its Respondent Memorandum**, a result that had only been obtained back in 2013.

The Willem C. Vis moot is the largest private law competition in the world. There are around 130 teams participating in the Hong Kong edition of the Willem C. Vis Moot and around 400 teams participating in the Vienna edition. The Willem C. Vis Moot gathers more than 3000 students and 1000 lawyers, arbitrators and academics, the latter acting as members of the arbitral panels.

The competition, conducted in English, is an amazing cultural and professional opportunity and it represents a decisive tool for the development of practical abilities. It tests the skills to prepare written legal documents and the ability to advocate.

The Willem C. Vis Moot centers around a dispute arising from a sales contract concluded between two commercial parties from different countries, both signatory members to the United Nations Convention on Contracts for the International Sale of Goods (CISG). The contract contains an arbitration clause through which the parties establish the arbitral tribunal competent to resolve their disputes. The applicable arbitration rules vary each year (LCIA Rules used for the 2019-2020 edition and Swiss Rules will be used for the 2020-2021 edition).

The Willem C. Vis Moot is divided in two stages. At the written stage, participating teams are required to submit a Memorandum for Claimant, followed by a Memorandum for Respondent. During the oral stage, held in Hong Kong and Vienna, the students present the arguments developed in their memoranda through pleadings against other teams.

The Bucharest International Conference and Pre-Moot, as well as the participation of the University of Bucharest in the 2019-2020 Willem C.
